Cannabis Industry

About IBC:

International Bar Coding Systems & Consulting (IBC) is a labeling & bar coding, data collection, process automation, inventory management, and point of sale solution provider. IBC supplies user friendly solutions with the most dependable hardware, software, and consumables to help you keep score!

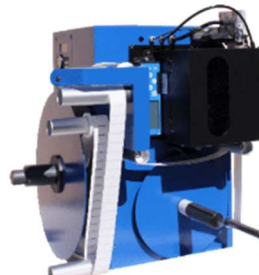

Cannabis Industry Solutions:

IBC is the one-vendor solution for all the labeling, bar coding, and tracking needs. Whether you need to track your plants, harvesters, totes, packaging, cases, or pallets IBC has a solution to help you make informed decisions. By providing real-time and intelligent data on inventory, work-in-progress, and shipped goods, IBC's solutions help cannabis producers and packers extract the maximum amount of data and value from every product and can even be integrated into a traceability solution that utilizes RFID. IBC's knowledge of printing solution spans 20+ years and in that time has helped growers from small family-run to the industry's largest Fortune 500 companies.
