

# Human Machine Interface (HMI)

Rugged computing solution for integrating digitized data entry into production value chains.

Built with a rugged mild-steel enclosure for dust and moisture mitigation, the IBC HMI allows data entry and collection in all type of work environments and industries. Used for tracking raw materials, work in progress, or finished products the IBC HMI fits into every production space to provide live, real-time automatic identification and data capture identification (AIDC). The IBC HMI is designed to be operated stand alone or integrated into scanning and printing solutions like the [IBC PA10L Label Printer Applicator](#) (Consumer Packaged Goods), [IBC PA10G Label Printer Applicator](#) (Wood Products), or [IBC AutoLabeler Pallet Label Printer Applicator](#). Designed with scalability in mind, the IBC HMI allows for multiple peripheral options to be added prior to installation, including printers, scanners, and data capture devices.

## Industries

Meat, Seafood, and Poultry Processing  
Cannabis and Silviculture  
Beer, Wine, and Cider  
Fresh Fruit and Vegetable  
Consumer Packaged Goods  
Wood Products Manufacturing  
Masonry and Metalworking

Add to existing production line equipment like the [PA10L Label Printer Applicator](#)

## Benefits

- Rugged devices and peripherals for scalable data collection needs.
- Increases lifespan of computing devices and peripherals in dust and moisture resistant case.
- Ensures data integrity by providing live real time data entry in any environment.
- Live Real Time Viewing of Reports and Key Performance Indicators (KPIs).

## Options & Accessories

- 17" Touch Screens
- Lenovo Computers and Servers
- Air Filtration & Recirculation System
- Air Conditioning
- Heating System
- Light Stack
- Audible Alarms
- Biometric Data Capture
- Non-EMV Magnetic Stripe Reader
- RFID Readers
- Waterproof Keyboards and Keypads
- Desktop Label Printers
- Industrial Receipt Printers
- Corded or Cordless 1D/2D Scanners
- UPS & Surge Protector
- Pre-Loaded Software
- Custom Software

## Standard Model

- Powder-coated Mild Steel HMI
- Lenovo i3 SFF
- 17" Touch Monitor
- APC UPS & Surge Protector
- Air Filtration & Recirculation System
