

Wood Products Solutions

For over 30 years IBC has been a trusted partner helping diversified forestry and wood products companies with labeling, bar coding, and track and trace. IBC is a full-service solution provider to the wood products industry with extensive experience in tracking wood products throughout the value chain. IBC has responded to industry needs with the most advanced technology in printing, scanning, labeling, and tracking solutions. IBC uses 1D Bar Codes, 2D Bar Codes, and Radio Frequency Identification (RFID) to authenticate data on raw material, work in progress, finished product and shipments throughout the value chain to prevent the accidental or intentional introduction of illegitimate material and ensure products are properly branded, packaged, and shipped. Using the industries most rugged equipment paired with North America wide service, and dependable consumables, IBC is the ultimate partner for wood product companies of all sizes looking to keep score.
